

EKOKODEX

EKOKODEX

1. **I learn** to feel the beauty of the nature with all my senses.
2. **I learn** to understand the nature, to know it and to respect its rules.
3. **I do not destroy it, break nor pluck.** I am a friend of all plants and animals. I care for greenery at home and at school. I care for my pats.
4. **I am not noisy** when I am in the nature. I am calm and quiet. I try to see and not to be seen, I try to hear and not to be heard.
5. **I do not pollute** the water. I respect it and I do not waste with it.
6. **I keep** my things in order. I do not throw rubbish all around. I do not spit chewing gum on the floor, but I throw it into the dustbin. I want my surroundings to be clean and tidy.
7. **I do not waste** with recyclable materials, I sort rubbish. I collect old paper and PET bottles' covers and used bateries.
8. **I am aware** that production of electric and thermo power is a heavy burden for the nature and its resources. I do not light too much nor air to much.
9. **I carry** out concrete deeds to make the school surroundings better.
10. **I keep** the rules of safety in the nature.
